

San Diego California.

Nov. 12/88

Mr. Lewis Watson  
Cambridge, Mass.

Dear Sir

The "List of the Writings  
of George Gray" has been received,  
for which I thank Mrs. Gray and yourself.  
It is a grand record of a noble and  
useful life.

I suppose that you have  
seen that Professor E. L. Greene makes a  
new species of our Common Dodecatheon.

Dr. Edward Palmer is here,  
I hope we may be able to secure him some

Permanent and engaged employment at San Diego.  
His health has improved since he came here.  
He is now getting material for you - for a determi-  
nation of the Palms - Callitriche here.

Very Sincerely yours  
David Barclay
